Kyungpook

Mathematical Journal

Kyungpook Mathematical Journal is an international journal devoted to significant research concerning all aspects of mathematics. The journal has a preference for papers having a broad interest. The articles of Kyungpook Mathematical Journal are listed on ESCI, SCOPUS and the American Mathematical Society's MathSciNet database and have about 100 subscribing institutions domestically and internationally. One volume of the journal is published every year. Each volume until volume 42 consisted of two issues; however, starting from volume 43(2003), each volume consists of four issues. Authors should strive for expository clarity and good literary style. Manuscripts should be prepared as follows. The first page must consist of a short descriptive title, followed by the name(s) and address(es) of the author(s) along with an electronic address if available. This should be followed by an abstract of at most 300 words, that summarizes the article in language which is accessible to researchers from other fields. The footnotes to the paper should include the 2020 Mathematics Subject Classification representing the primary and secondary subjects of the article. The classifications are accessible from <http://www.ams.org/msc>. The Mathematics Subject Classification footnote should be followed by a list of key words and phrases describing the subject matter of the article. Bibliographic references should be listed alphabetically at the end of the paper. Authors should consult Mathematical Reviews for the standard abbreviations of journal names. It is highly recommended that authors prepare the manuscript using the $\text{A}_\text{M}\text{S-}\text{T}_\text{E}\text{X}$ or $\text{L}_\text{A-}\text{T}_\text{E}\text{X}$ macro packages and submit it in electronic form via the online submission system(<http://kmj.knu.ac.kr/submission>). Articles are available at the 'KMJ Articles' section of KMJ Homepage at the URL given below. Reprints can be ordered from Kyungmoon Publishing.

All correspondence regarding the journal (journal exchanges and inquires into the state of papers etc.) should be sent to:
